

POLY (N,N-DIMETHYL ACRYLAMIDE) CERTIFIED REFERENCE MATERIAL

POLY (N,N-DIMETHYL ACRYLAMIDE)

Synonyms: POLY (N,N-DIMETHYL ACRYLAMIDE)

12 samples x 100 mg each

Price: 1,500 USD

Our POLY (N,N-DIMETHYL ACRYLAMIDE) standards kit includes 12 samples with molecular weight ranging from **2,700 Da to 1,400,000 Da** and narrow polydispersity. All our Certified Reference Materials conform to international quality standards and are good for calibration and evaluation of analytical instruments, as well as for fundamental research.

Check our website www.polymersource.ca for more details on Certified Reference Materials.

Thank you for choosing Polymer Source to supply polymers for your research.

It is our pleasure to continue serving you.
