

**Sample Name: Poly isoprene**  
(rich in 1,4 microstructure)

**Sample #: P9390A-IP Tetramer**

**Structure:**

**Composition:**

Mn x 10 <sup>3</sup>	PDI
0.326	1.10

**Synthesis:**

The product was synthesized by anionic polymerization process using Sec. Butyl lithium initiator.

**Characterization:**

The product was characterized by <sup>1</sup>H NMR.

**HNMR of the product:**
