

Sample Name:

**Hexa(ethylene glycol) methacrylate**

Alternate Name:

Oligo(ethylene glycol) methacrylate

Sample # **P18597-EGMA**

Molecular weight (g/mol):	$M_n = 350$
---------------------------	-------------

**Characterization:**

Functionality and molecular weight of the polymer were determined by  $^1\text{H}$  NMR spectroscopy.

**$^1\text{H}$  NMR spectrum:**

$^1\text{H}$  NMR (500 MHz;  $\text{CDCl}_3$ ) of P18597
